

## TESTIMONIAL

*"I have known Dr. Rathman now for more than 15 years, and have worked with her on a number of different architectural restoration and heritage education projects; most prominently the planning and grant writing for the Doheny Manson Restoration Project at Mount St. Mary's University, and the Rose Bowl Renovation Project in Pasadena. She is diligent in conducting research and has a great ability to quietly listen during the team's planning process to comprehend the fundamentals of all the issues at hand. Dr. Rathman also is effective in identifying both problems and solutions, and regularly brings special insights to the work, as well as a pleasant experience for the collaborators involved."*— **Peyton Hall, FAIA, Managing Principal, Historic Resources Group**
